

### Assignment-3

IBMCloud

AssignmentDate	22 October2022
StudentName	Gunadharshini G
StudentRollNumber	610519104034
MaximumMarks	2Marks

#### Question-1:

1. Create a Bucket in IBM Object Storage.
2. Upload 5 images to IBM Object Storage and make it public. Write HTML code to display all the 5 images.
3. Upload a CSS page to the Object Storage and use the same page in your HTML code.
4. Design a chatbot using IBM Watson Assistant for a hospital. Ex: User comes with a query to know the branches for that hospital in your city. Submit the web URL of that chatbot as an assignment.
5. Create a Watson Assistant service with 10 steps and use 3 conditions in it. Load that script in HTML page.

The screenshot displays a web browser window with multiple tabs. The active tab shows a diagram of an Inventory Management System. The diagram features a central yellow circle labeled 'Inventory Management System'. Surrounding this central hub are various components connected by arrows: 'Physical Inventory' (top), 'Outbound Merchandise' (top-left), 'Inbound Merchandise' (bottom-left), 'RTV' (bottom-left), 'Returns' (bottom), 'Reverse Inventory' (bottom), 'POS' (bottom-right), 'Inquiry' (right), 'Store Manager' (top-right), and 'Inventory Control / Administration' (top-right). The browser's address bar shows the file path 'C:/Users/balaji/Desktop/resume/index.html'. To the right of the diagram is a blue chatbot interface titled 'Hi! I'm a virtual assistant. How can I help you today?'. It includes a text input field with the placeholder 'Type something...' and a send button. Below the input field, it says 'Built with IBM Watson®'.

This screenshot shows the same web browser window as the previous one, but the chatbot interface on the right is now displaying a conversation. The chatbot's message is 'Hi! I'm a virtual assistant. How can I help you today?'. The user's input is 'which time the hospital opening'. The chatbot's response is '9.00am'. The text input field now contains the placeholder 'Type something...'. The browser's address bar remains the same, showing 'C:/Users/balaji/Desktop/resume/index.html'. The system clock in the bottom right corner indicates the time is 10:54 AM on 10/22/2022.
